

Nursery Rhymes Day Nursery Ethos

Nursery Rhymes ethos is to provide a safe and loving home from home environment, where all children are encouraged to be independent, imaginative and curious.

At Nursery Rhymes the children's voices are heard and their interests are at the heart of everything we do, this is promoted by our free flow opportunities.

Combined with the Early Years Foundation Stage we aim to support each child to develop their individual intelligencies through play. Our Skilled teachers are on hand with their 'suitcase of skills' to 'sprinkle the necessary learning' as the children play and explore, giving them confidence to achieve their full potential.

We pride ourselves on our outdoor environment that establishes opportunities for the children to explore and learn in the natural world, while taking measured risks with the assurance of competent teachers who encourage resilience and self belief.

We encourage our children to learn about the world around them and become adventurers in both our indoor and outdoor areas.

Teachers are consistent when supporting children to understand boundaries and guidelines while ensuring children's safety is paramount. The well being and happiness of the children is at the forefront of our values. We provide opportunities for imaginative and creative play, so the children can open the door to their fantastic imagination where they believe anything can be a possibility.
